ERIC HO

415-734-6108   eric.h924@gmail.com   LinkedIn   Github

SKILLS   JavaScript, Express, Ruby, Rails, PostgreSQL, JQuery, MongoDB, CSS3, HTML5

PROJECTS

Erichood *(Javascript, React/Redux, Rails 5, Recharts, JQuery, ActiveRecord, PostgreSQL, CSS3, HTML5)*   **live** | **github**
A Robinhood clone that will not mistake leap year dates.

- Designed search algorithm to find stock price from user input to search for either company name or ticker symbol
- Implemented user authentication system using BCrypt library on Rails backend.
- Fetched real time stock prices and datas from API calls
- Worked with Rechart, a Chinese made chart library and used chinese documentation.
- Secured transactions using three separate verification: state, model, and database level.

Supermememaker! *(Javascript, MongoDB, Express, React, Redux, Node.js, html2canvas)*   **live** | **github**
Customizable meme image generator .

- Lead team in designing and delegation of daily tasks to three other members.
- Implemented user authentication using JSON Web Tokens with Passport-JWT
- Implemented html2canvas to take a screenshot of a live DOM element.
- Dynamically changed image-sizing to not overload the database.
- Collaborated with team members using Git for version control.

Not So TouHou | *(Javascript, Canvas, CSS3, HTML5)*   **live** | **github**
Stage based intense bullet hell shooter

- Developed game in pure ES6 Javascript
- Implemented collision detection system with player's and enemies' projectile
- Designed to give players a challenging experience.

EXPERIENCE

Billing Manager
Trimark Economy Restaurant Fixtures   Dec 2016 - Oct 2019

- Promoted to Billing Manager nine months into the company.
- Managed team of six staff in multiple offices in the Bay Area and Sacramento locations.
- Supervised daily billing duties to customers both domestically and international on orders exceeding 250 orders a day.
- Assisted with the Controller and A/R department to recover potential loss revenues from the backlogs of A/P departments.

Export Logistics Specialist
PortLink USA   Dec 2015 - Dec 2016

- Coordinated with customers and partners worldwide to ensure timely delivery of export goods
- Increased efficiency of co-workers through implementing new software and macros to speed up workflow.
- Generated daily export documents and airway bills.
